01 PROFILE

Web designer and front-end developer with over 20 years of experience, from hands-on design to leading a design team. I combine a good visual eye with practical development, custom WordPress functionality, AI chatbots and connected workflows. Available for new builds, improvements and agency support.

02 WHAT I BRING

Design & front-end

Websites, landing pages and responsive interfaces. Design-led builds and practical fixes.

Custom WordPress

Bespoke plugins, dashboards, tools and API integrations built around the project.

AI chatbots

Botpress assistants with knowledge retrieval, useful workflows and structured outputs.

Automations & integrations

Forms, CRMs and connected tools that reduce repetitive work and improve hand-offs.

03 CURRENT WORK
